

## Key Features

**Real-Time Health Monitoring** Track body temperature, heart rate, rumination patterns and activity levels.

**AI-Powered Insights** Predict health issues, heat cycles, and abnormalities early to prevent problems and optimize yields.

**Milk Production Tracking:** Monitor daily milk output from individual or groups of cattle.

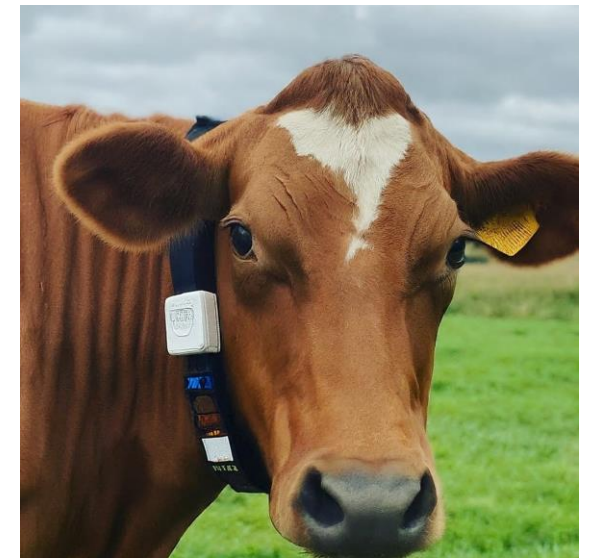

**Emergency Alerts:** Receive notifications for health concerns or low battery status.

**Bluetooth Connectivity:** Sync data with the mobile app for live updates and historical records.

## About Us

TechCattle offers an innovative solution for efficient cattle management through an advanced electronic device and intuitive app.

Designed for farmers, dairy managers, insurance agencies, veterinary experts, and rural credit agencies, TechCattle enhances real-time monitoring and decision-making, improving overall productivity and health of livestock.

## Tech Cattle

Revolutionizing Livestock  
Management

# Benefits

## For Cattle Owners

- \* Continuous health monitoring of cattle.
- \* Alerts for health abnormalities and heat cycles.
- \* Enhanced insemination accuracy and improved yields.

## For Dairy Systems

- \* Predictable milk procurement and quality control.
- \* Efficient management of milk supply and processing.
- \* Breed and cluster-wise tracking for consistent supply.

## For Insurance Agencies

- \* Real-time updates on insured cattle's health and productivity.
- \* Early warnings for regional health issues and proactive care.
- \* Comprehensive data for accurate risk management.

## For Rural Credit Agencies

- \* Accurate assessment of livestock collateral for credit.
- \* Regular data on cattle productivity for secure lending.

## For Veterinary Experts

- \* Timely alerts for health interventions.
- \* Data-driven insights to advise on local health issues and epidemics.
- \* Opportunity to be part of tech revolution in Vet sector

## Device Specifications

Size: 100mm x 60mm x 30mm

Weight : 150 Grams

Battery Life: Up to 100 days

Voltage: +3.5 Vdc

**Take advantage of our cutting-edge technology to elevate your cattle management practices.**

**With TechCattle, streamline operations, improve cattle health & outcomes, and drive productivity.**
